COMPETITION FORMAT

In determining the format for the competition, NSGOC should aim to provide meaningful¹ competition experiences for participating teams. The suggested competition formats highlighted in this Annex are options that the NSGOC can consider when drawing up their fixtures. The selected competition format should be standardised within the same sport (i.e., across zones; and from year to year).

1. Grouping

The grouping approach should be determined based on the number of participants / teams in the competition, with the aim to allow teams to have sufficient playing opportunities while optimising resources (venue, officials, time, workload). Each group should comprise 4 to 6 teams with the exception of a single round robin for 7 teams.

2. Seeding

Seeding is done based on the preceding year's results and the seeding approach will differ according to the competition format chosen based on the following table:

Table 1: Recommended seeding approaches for different competition formats

Zonal / Direct National Competitions	Pool – League Competitions	Other Competitions
Objectives of Seeding: <ul style="list-style-type: none"> • To evenly distribute the top teams from the preceding year into different groups 	Objectives of Seeding: <ul style="list-style-type: none"> • To group teams to increase opportunities for them to play with teams of relatively similar abilities 	Event-based Competitions / Individual Match-based Competitions_(e.g. Taekwondo (Kyorugi)) <ul style="list-style-type: none"> • Adopt sports specific seeding approach that would meet the competition needs.

¹ Each participating team should minimally play 3 matches (i.e., cumulative across Zonal and National competitions; where applicable) in the course of competition. For Tiered and League competitions, team should minimally play 6 matches. This is to allow for more equitable playing opportunities for all teams.

<ol style="list-style-type: none"> 1. The top 4 teams from preceding year's National results will be seeded and distributed to different groups. 2. SUGGESTED CHAMPIONSHIP FORMATS FOR POOL-LEAGUE COMPETITION

Multiple-Groups Championship Format

NSGOCs should leverage on existing competition structures and mechanisms to implement a consistent seeding approach to seed and place them in different groups in the Pool Round using preceding year's results. Teams of similar ability are grouped together in all stages of the competition while ensuring porosity between leagues every year through promotion and relegation.

Examples to illustrate for League Competition

Example 1: For sports that are moving from Zonal-National to the Pool-League format.

Using preceding year's National Competition result for seeding. (*This example will be removed in 2025*)

Pool A	<ul style="list-style-type: none">• The National Top 8 will be placed in Pool A.• The top 4 teams will be seeded and placed in 2 different groups within Pool A.• No more than two seeded teams shall be drawn into the same group.• The remaining 4 teams will be randomly drawn into groups within Pool A.
Pool B	<ul style="list-style-type: none">• The next 8 teams (Position 9th to 16th) will be placed in Pool B and will be randomly drawn into the groups.
Pool C	<ul style="list-style-type: none">• The remaining teams (Position 17th to 24th) will be placed in Pool C and will be randomly drawn into the groups.

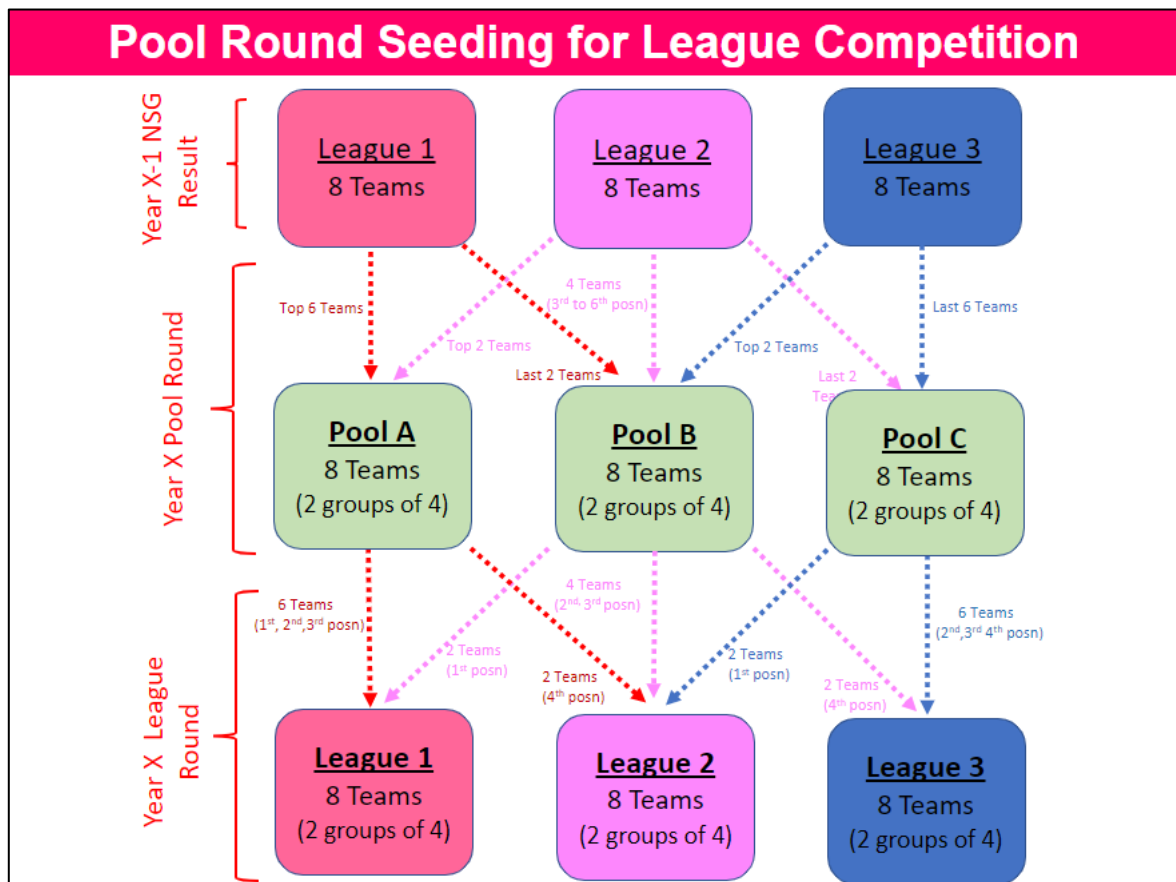

For a National Competition with 24 teams, porosity to Pool round should be in place as shown below.

Example 2: For sports which have adopted the League system

Using preceding year's League result for seeding

For a competition with 3 Leagues of 24 teams, porosity to Pool round should be in place as shown below.

In determining the competition format after the Pool Round, NSGOCs should refer to the suggested competition format based on the number of teams in each league.
